Dear Mr. Falkin:

Enclosed are part of the Mobil Oil Corporation documents responsive to EPA's Section 104(e) CERCLA information request letter dated April 12, 1988. As W. C. Streets confirmed with you on May 4, 1988, Mobil's Paulsboro Refinery has a substantial number of documents which may be responsive and, therefore, has not completed all production. As of late today, we received from Paulsboro a substantial portion which we will promptly review and forward to you no later than May 20, 1988.

We are forwarding those documents which we were able to review by the deadline for express mailing. These documents are responsive to request number 5. They concern a May 15, 1980 request for bids which was sent to Universal Container Corporation, among others, and which included 55 gallon drums.

Please contact W. C. Streets if you have any questions (703) 849-4143.

Very truly yours,

*Shari Gulbrandsen*
